Re: Robert M. Battle, MD

To whom it may concern:

I am honored to write a letter, to any and all parties interested, about my experience with Dr. Battle and the care of his patients.

For nearly twenty years I have known about Dr. Battle and his commitment to his patients' optimum health. His commitment to his patients' care is reflected in his incomparable study and ongoing education, his uncompromising invitation to his patients to participate in their own best health, and in the improved health and positive patient response to his care. How do I find out about patient response to his care? I ask them.

Dr. Battle's work improves the health of individuals and families. From my perspective of 34 years of practicing dentistry, his work and protocols easily match and consistently exceed the standards of quality care of traditional medicine. His genuine concern for his clients is unquestionable. That is why I have personally taken my mother and daughter to Dr. Battle for care.

Thank you for the opportunity to reflect on my experience of Dr. Bob Battle; it has served to reinforce my appreciation of him and his care.

Sincerely,

William P. Glaros, D.D.S.
