RE: Robert M. Battle, MD

To Whom It May Concern:

Please accept this letter as my knowledge of and deep respect for Dr. Battle. I have been a patient of his at his Houston, Texas, clinic location for the past 15 years.

Dr. Battle and his staff have always treated me in a very professional manner both in our conversations and in the treatment of my health issues. As a 45 year old woman, I came to Dr. Battle feeling quite ill. I had previously consulted several medical care providers including specialists in the Texas Medical Center. After many tests had been performed, the doctors all said that I was under stress and prescribed prescription medications in hopes of making me better. Needless to say, my health did not improve but declined more due to the medications. I became allergic to some of the medications which caused more problems on top of the original conditions I was trying to overcome.

My overall health has significantly improved since I have been under Dr. Battle's care. He has been very patient with me over the years always listening to me and answering my questions. I feel tremendously better now than I have in many years. I recently was able to go back to college and obtain my degree in elementary education. This was something that I never thought I would be able to accomplish but with Dr. Battle's help, I made it through and succeeded. I no longer take prescription medications but am able to benefit from alternative health care treatments of which Dr. Battle is very knowledgeable. He is always reading and learning and bringing the most up-to-date treatments to all of his patients. He also brings his conventional medical training skills to his patients and when combined with his alternative medical skills, he provides the most comprehensive care available.

I have always appreciated Dr. Battle's care and concern for me because he has never given up on trying to make me healthier. I trust him completely with my healthcare and I have also entrusted my family's health to him through the years. We have discovered a better way to health through Dr. Battle and alternative medicine – a more natural way of healing. I have recommended Dr. Battle to many of my friends and acquaintances who have not found wellness through conventional medicine. He has a genuine concern and care for all of his patients which I have witnessed over the years.

Dr. Battle is a very caring and compassionate doctor. All of the patients I have met at his office throughout the years have spoken very highly of him and his staff. I cannot say enough about Dr. Battle and what he has meant to me and my family. We have the utmost respect for him and his staff. I would highly recommend Dr. Battle to anyone who wants to improve their health. It is my pleasure to let you know what a gifted, competent, committed, and outstanding medical professional Dr. Robert Battle is.

Sincerely,

Mrs. Jan Kousounis
