Re: My Experience at Health Care at Comprehensive Health
Association/Dr. Battle and staff

To whom it concerns:

I am a 64 year old male who has been a patient of Dr. Robert Battle MD. since February, 2006. I am being treated for several health issues including coronary artery disease, a rare autoimmune disease, type II diabetes and other related diseases.

Prior to beginning my treatment with Dr. Battle I had been under the care of several traditional medical health care providers, including specialists. At the time of my first visit to Dr. Battle I was taking many prescription medications which were having an adverse effect on my overall ability to function and my quality of life.

My overall health has significantly improved since I began alternative health care treatment with Dr. Battle. I can exercise without limitation, I feel decades younger, I have significantly more energy, I no longer have the aches and pains I had prior to beginning treatment, my blood pressure and blood sugar are within normal limits and my autoimmune disease is under control. I am not taking any prescription medications. People who have known me for a long time are constantly telling me how good I look and they ask me who my doctor is and several have requested referral's to Dr. Battle.

The people I have referred to Dr. Battle are all very happy with their results and with Dr. Battle and his staff. All of the patients I have spoken to at Dr. Battle's office also speak very highly of Dr. Battle, his staff and their results.

Dr. Battle is a caring and compassionate doctor. He has excellent communication skills and spends as much time as possible with his

patients. He takes great care to explain his diagnosis and treatment plan and answers all questions. He is passionate about his particular practice of alternative health care and he is extremely knowledgeable. He is always continuing his education, reading and listening to health care related tapes.

The entire staff at Comprehensive Health Association is very professional, personable, knowledgeable, helpful, friendly and kind. They are obviously well trained, managed and supervised.

You get what you pay for and with Dr. Battle and his staff; I believe you get the very best. It goes without saying that I strongly and highly recommend Comprehensive Health Association, Dr. Robert Battle MD, and his staff for anyone and everyone who wants to improve their health, avoid future health problems or maintain their current good health.
